ZeroFrame with 4-side-borderless

Acer BE0 series displays offers you new zero-frame design which provide real 4-side-borderless enclosure, virtually removes the display bounding box and gives you all image, seamless visual enjoyment

In-Plane Switching technology

In-Plane Switching technology, which is accurate across 178° presents a splendid quality in wide angles. Rough the screen, everything is crisp and clear from any angle.

sRGB wide color gamut

A color gamut is a sunset of colors, such as those in a specific color space. The gamut of a device is that portion of the color space that can be represented. 100 % sRGB color coverage can store a large color space, which is able to produce, or present a wider range of colors on screen.
