BUILT-IN BATTERY

10 points capacitive touch display

With 10 point projective-capacitive touch recognition technology, the display easily detects 10 fingertips at once. Certified with Windows 10 touch support and compatible with many touch-sensitive applications and games. Great for taking notes on the go, getting a digital signature, or playing your favourite mobile game.

Usb-c connection with laptop or smartphone

Easy connections anywhere you go. With the USB-C ports on two sides of the 16T2, connect a laptop, smartphone or computer in an instant with a single cable. USB-C carries network, data, video signals and power simultaneously with a single cable. No extra clutter. If connected via HDMI, you will need to plug the USB cable to your device to enjoy touch function. *Check compatibility list*

Smart cover

The smart cover of 16T2 protects the display surface against dents and scratches inside your bag. While using it, the smart cover transforms into a flexible stand to set up the display in portrait and landscape mode easily.

Stereospeakers

Integrated stereo speakers with 2x 1W sound output for improved sound quality on the go, to play videos or games. Upgrade tiny smartphone speakers with this wider soundstage and improved sound experience.

Built in 8000mAh battery / Power bank for mobile charging

The 16T2 boasts an 8000mAh built-in battery. While in use, the battery powers the monitor, while switched off, it acts as a power bank and can charge devices connected via USB-C. A fully charged 16T2 can recharge today's average smartphones twice - a lifesaver when a smartphone battery is about to die. *Check compatibility list*

Portable - compact and lightweight (9mm thickness,

Thinner than most notebooks, lighter than most waterbottles - the 16T2 is just 9mm thin and weighs only ~1 kg without its flexible cover. Fits perfectly in any backpack or purse and is easy to carry. On top of that, this screen is robust and resistant against scratches (H3 hardness).

Productivity on the go

Possibilities with the 16T2 are endless. Extend your laptop display on the go or at the home office, use it for presentations, or taking notes during a meeting or lecture. Play videos anywhere, get a digital signature from a client, or boost your smartphone display to play mobile games to a 15.6" size. It's limited only by your imagination.

Vesa bracket

Not only good for on the go: create a small self-service signage kiosk by mounting the 16T2 touch display to a monitor arm or wall mount, using the included optional 75x75/100x100 VESA bracket. The 16T2 fits perfectly as a kiosk display, for customers to enter feedback, or make orders, or just play informational videos in the background, show timetables or news.

IPS

IPS panel ensures an excellent viewing experience with lifelike yet brilliant and accurate colours. Colours look consistent no matter from which angle you look at the display. Additionally, the anti-glare coating prevents disturbing reflections on the screen.

USB-C connection for maximal productivity

The perfect solution for your home office
