## My outstanding values run in the family.

#### Reliable

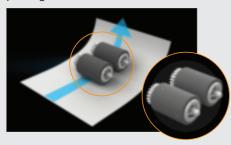

Indulge in a smooth printing experience that prevents paper jam with Brother's Hassle-free Printing Technology. Built for durability and robustness, the new monochrome laser printer and Multi-Function series is designed in Japan to keep on performing.

#### Prevents Paper Jam with Brother's Hassle-free Printing Technology

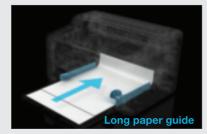

Before: Short side guide may cause paper skew

Unique rubber material prevents dust from sticking onto the rollers. Dual roller system improves paper feeding by picking one sheet at a time.

After: Longer side guide prevents paper skew

A short paper path enables smooth printing and prevents paper from getting stuck.

### **Affordable**

With low-priced hardware and genuine consumables, the Brother Monochrome Laser Printer and Multi-Function Centre series offers approximately 1,000 prints' without compromising on quality. Unlike most printers, the Brother series features a separate toner cartridge and drum unit. This means you only need to replace one component at a time, giving you significant cost savings. All these features are packed in a light and compact printer, made possible due to Brother's expertise in printing technology.

#### **Efficient**

With print speeds of up to 20 pages per minute, you will be able to get quality prints fast. The Automatic Document Feeder (ADF)^ allows you to copy, scan and fax up to 10 pages at once. And with the 2-in-1 ID Copy feature, you will be able to copy both sides of a ID card onto one page at a touch of a button.

Increase productivity with 20 pages per

with Automatic
