BROWSER-BASED ROOMBOOKING

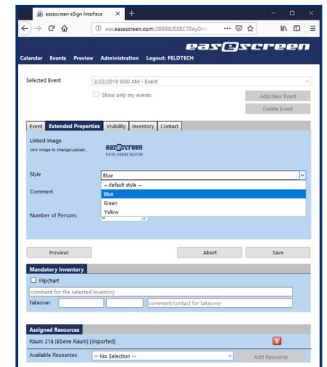

Calendar design

The calendar view displays your bookings and free spaces well-arranged.

Booking entry & extended properties

An entry mask supports the creation of an appointment. Furthermore, special parameters can be added individually (i.e. customer logo, inventory, contact person).

Room	Event	Time	Action
Android Room	No Event		Book
Auditorium	Booked directly	09:14 - 09:30	Cancel
Room 1	Booked directly	09:16 - 10:20	Cancel
Room 21	No Event		Book
Room 23	No Event		Book
Room 3	No Event		Book
Room 31	No Event		Book

eSIGN FEATURES

Room calendar

A calendar view shows the reservation of the rooms clearly arranged in the web interface and enables booking.

Adhoc meeting

Is the room free? Via door sign with touch display you are able to book the room directly on-site.

Customer logos

eSign enables the upload and display of customer logos.

Early end of meeting

Release the room via touch screen in advance.

Room too small?

eSign enables the joint booking of separable conference rooms.

Extend meeting

Via door sign with touch screen you can prolong the booking until the next booked meeting.

Additional resources

You need technology or catering for your meeting? An integrated resource administration simplifies the organisation.

Search for rooms

You are looking for a free room? Via touch screen at the door sign you can display the rooms.

Reporting

You want to know about the occupancy of the conference rooms? No problem, the integrated reporting function of eSign helps you with that.

Support

Something within the room does not work? Via the touch screen of the door sign you can send a message that has been deposited in advance.

Confidential meetings

The meetings or their topics are confidential? With the corresponding option the appointment stays hidden.

Check-in options

You have to confirm the beginning of the meeting via touch screen, otherwise the room is released automatically after a certain amount of time.

Corporate design

The layout of the door signage can be created in your corporate design easily.
