

Product Brief

# INTEL® NUC KITS NUC7CJYH & NUC7PJYH

# INTEL® NUC MINI PC NUC7CJYS

- Intel® HD Graphics
- Dual 4K display capabilities
- 7.1 Surround Sound
- Dual-array front microphones

The Shape that Fits the Future.

# THINK YOU KNOW WHAT SMALL CAN DO? THINK AGAIN.

Whether your customers are home consumers or small businesses, there is an Intel® NUC system to meet the needs of value-oriented buyers who need basic functionality at an affordable price—all in a small package that's about 4 inches square.

Leveraging Intel's most advanced 14nm process technology and optimizations, the Intel® NUC7CJYS and Intel® NUC7CJYH are built with dual-core Intel® Celeron® processors; the NUC7CJYS is a fully configured Mini PC while the NUC7CJYH is a traditional NUC kit. Also sold as a customizable kit, the Intel® NUC7PJYH is built with a quad-core Intel® Pentium® Silver processor. Whether you are customizing a kit for your customers or they need a full system, the two Intel NUC kits and the NUC7CJYS Mini PC are ideal for cost-conscious consumers who need a system for everyday computing.

## **The Intel® Celeron® Processor: Where performance meets value in two different configurations**

### **The features customers expect in a customizable kit**

The Intel NUC7CJYH Kit with a dual-core Intel Celeron processor comes with dual-array front microphones enhanced with software that lets your clients take full advantage of voice commands through Alexa\* or Windows Cortana\* no matter where they're standing in the room. And with dual Ultra HD 4K display support via two full-sized HDMI\* ports, consumer infrared, and a TOSLINK audio jack, they've got everything they need to stream media, play, or finish that last-minute presentation.

Intel® HD Graphics with dual 4K ports lets your customers display information in brilliant 4K and keeps eyes from tiring on systems used as PC replacements. 4K also adds crisp definition and clarity to images and messages on entry-level digital signage.

### **A complete Mini PC with Windows® 10 installed**

Ready to go straight out-of-the-box, Intel NUC7CJYS is a complete Mini PC with all the features of the NUC7CJYH Kit, in the same 4-inch square chassis. The system has Windows® 10 installed on 32 GB of on-board flash storage and 4 GB of DDR4 RAM, so customers can experience this entry-level Mini PC without any additional components.

Because the NUC7CJYS is a complete system, you can sell across the value chain with no additional work, allowing you to focus on where you add the most value: in service, support, and expert consultation. You can generate additional services and sales of peripherals and software. Room for an extra channel of RAM and a 2.5" SSD or a high-capacity HDD for more storage can also lead to additional sales.

## **The Intel® Pentium® Silver Processor: Intel's newest processor brand in an Intel NUC kit**

The Intel NUC7PJYH Kit with a quad-core Intel Pentium Silver processor has the reliable performance your customers have come to expect from Intel, and is also perfect for everyday computing tasks, delivering the performance they need, including up to 55 percent better performance on Windows applications.<sup>1</sup>

The NUC7PJYH Kit also comes with dual Ultra HD 4K display support via two full-sized HDMI\* ports, consumer infrared, and a TOSLINK audio jack, they've got everything they need to stream media, play, or finish that last-minute presentation. And with 3.2x better graphics,<sup>2</sup> you can create robust entry-level digital signage at entry-level prices for your SMB customers.

## **Deep customization capabilities on both kits**

The NUC7CJYH Kit and the NUC7PJYH Kit are both designed for Windows 10, but you have the choice to install the OS, memory, and hard drive you want so you can create the exact systems that your customers need. From PC replacement to entry-level digital signage, you can build a Mini PC that does exactly what your customers need it to do.

With support for up to 8 GB of DDR4 RAM, clients can stream media without stuttering and multitask with ease. There are 4 USB 3.0 ports including a USB charging port—which can let you generate additional peripheral sales for USB keyboards, mice, and printers.

Finally, internal headers, including AUX\_PWR and CEC, allow for deep customization for PC-like embedded systems.

## **INTEL® NUC: Performance meets value for daily productivity.**

# GO SMALL, GET BIG.

## Highlighted Features

- 1 Intel® Celeron® Processor J4005 (NUC7CJYH and NUC7CJYS only)
- 2 Intel® Pentium® Processor J5005 (NUC7PJYH only)
- 3 Intel® HD Graphics 600 (NUC7CJYH and NUC7CJYS only)
- 4 Intel® HD Graphics 605 (NUC7PJYH)
- 5 Two DDR4 SO-DIMM sockets (up to 8 GB, 2400 MHz)
- 6 1x SATA3 port for connection to 2.5" HDD or SSD
- 7 Intel® Wireless-AC 9462 and Bluetooth\* v5
- 8 Two USB 2.0 internal headers
- 9 Kensington lock support
- 10 SD card slot
- 11 Two USB 3.0 ports (one charging)
- 12 Front panel power button
- 13 Support for user-replaceable third-party lids
- 14 Back panel DC power connector (12–19V)
- 15 Two USB 3.0 ports on the back panel
- 16 Two full-size HDMI\* 2.0a display port supporting 8 channel audio (7.1 surround sound)
- 17 Gigabit LAN

## Intel NUC7CJYS

A complete Mini PC with a dual-core Intel Celeron processor, 4 GB of DDR4 RAM, and Windows® 10 installed on 32 GB of on-board flash storage, the Intel NUC7CJYS is ready to go straight out-of-the-box.

# INTEL® NUC KITS NUC7CJYH, NUC7PJYH INTEL® NUC MINI PC NUC7CJYS

## Technical Specifications

### Processor

- Intel® Celeron® processor J4005 (4M Cache, 1.5 GHz, up to 2.80 GHz, 4M Cache, 10W TDP) (NUC7CJYH and NUC7CJYS)
- Intel® Pentium® processor J5005 (1.5 GHz, up to 2.80 GHz, 4M Cache, 10W TDP) (NUC7PJYH)

### Graphics

- Intel® HD Graphics 600 (NUC7CJYH and NUC7CJYS)
- Intel® HD Graphics 605 (NUC7PJYH)
- Two HDMI\* 2.0a ports with 4K at 60 Hz

### System Memory

- Two DDR4 SO-DIMM sockets (up to 8 GB, 2400 MHz), 1.2V
- Prepopulated with one 4 GB stick of DDR4 memory (NUC7CJYS)

### Storage Capabilities

- 32 GB on-board eMMC (NUC7CJYS only)
- One SATA3 port for connection to 2.5" HDD or SSD (up to 9.5 mm thickness)
- One SDXC slot with UHS-I support

### Peripheral Connectivity

- Gigabit LAN
- Four USB 3.0 ports (two back panel ports and two front ports)
- Two USB 2.0 ports via internal header
- Intel® Wireless-AC 9462 with Bluetooth\* v5

### System Bios

- 64 Mb Flash EEPROM with Intel® Platform Innovation Framework for EFI Plug and Play
- Advanced configuration and power interface V5.0b, SMBIOS2.5
- Intel® Visual BIOS
- Intel® Express BIOS update support

### Hardware Management Features

- Processor fan speed control
- Voltage and temperature sensing
- Fan sensor inputs used to monitor fan activity
- ACPI-compliant power management control

### Expansion Capabilities

- Two Internal USB 2.0 ports
- HDMI CEC header

### Audio

- Up to 7.1 surround audio via HDMI
- 3.5mm front headset jack
- 3.5mm rear speaker/TOSLINK audio jack

### Front Panel Header

- Reset, HDD LED, Power LEDs, power on/off

### Mechanical Chassis Size

- 4.55" x 4.57" x 2.01"
- 115mm x 111mm x 51mm

### Baseboard Power Requirements

- 19V, 65W AC-DC power brick adapter

### Environment Operating Temperature

- 0° C to +40° C

### Storage Temperature

- -20° C to +60° C

### Product Safety Regulations and Standards

- IEC 60950-1
- UL 60950-1
- EN 60950-1
- CAN/CSA-C22.2 No. 60950-1

### EMC/RF Regulations and Standards (Class B)

- CISPR 52
- FCC CFR Title 47, Chapter I, Part 15, Subparts B, C, E
- ICES-005
- EN 55052
- EN 55024
- ETSI EN 500 528
- ETSI EN 501 489-1
- ETSI EN 501 489-17
- ETSI EN 501 895
- EN 62511
- AS/NZS 2772.2
- AS/NZS 4268
- VCCI V-2, V-5, V-4
- KN-52
- KN-24
- CNS 15458

### Environmental Regulations

- RoHS Directive 2011/65/EU
- WEEE Directive 2012/19/EU
- China RoHS - Management Methods for Restricted Use of Hazardous Substances in Electrical and Electronic Products

<sup>1</sup> As projected by SYSmark® 2014 v1.5 on Intel® Pentium® Silver Processor N5000, PL1=6W TDP, 4C/4T, up to 2.7GHz, Memory: 2x2GB DDR4 2400, Storage: Intel SSD, OS: Windows® 10 RS2 vs. Intel® Pentium® Processor N3540, PL1=7.5W TDP, 4C/4T, up to 2.66GHz, Memory: 2x2GB DDR3L-1333, Storage: Intel SSD, OS: Windows® 10 RS2 (65% MOBILE) and Intel® Pentium® Silver Processor J5005, PL1=10W TDP, 4C/4T, up to 2.8GHz, Memory: 2x2GB DDR4 2400, Storage: Intel SSD, OS: Windows® 10 RS2 vs. Intel® Pentium® Processor J2900, PL1=10W TDP, 4C/4T, up to 2.67GHz, Memory: 2x2GB DDR3L-1333, Storage: Intel SSD, OS: Windows® 10 RS2 (60% DESKTOP).

<sup>2</sup> As projected by 3DMark 11 on Intel® Pentium® Silver Processor N5000, PL1=6W TDP, 4C/4T, up to 2.7GHz, Memory: 2x2GB DDR4 2400, Storage: Intel SSD, OS: Windows® 10 RS2 vs. Intel® Pentium® Processor N3540, PL1=7.5W TDP, 4C/4T, up to 2.66GHz, Memory: 2x2GB DDR3L-1333, Storage: Intel SSD, OS:

Windows® 10 RS2 (3.2X MOBILE) and Intel® Pentium® Silver Processor J5005, PL1=10W TDP, 4C/4T, up to 2.8GHz, Memory: 2x2GB DDR4 2400, Storage: Intel SSD, OS: Windows® 10 RS2 vs. Intel® Pentium® Processor J2900, PL1=10W TDP, 4C/4T, up to 2.67GHz, Memory: 2x2GB DDR3L-1333, Storage: Intel SSD, OS: Windows® 10 RS2 (3.9X DESKTOP).
