### Versatile, portable design

The fold-and-go design and short USB cable make it easy to take your webcam with you, while a USB cable extender gives you plenty of slack when you need it.

### Swiveling, tripod-ready design

You can attach a tripod for more placement options. Plus, the 360-degree swivel makes calling and recording easier at any angle.

### Plays nice with Windows® and Mac®

Windows? Mac? iChat®? Skype™? Google Voice™ and Chat? It doesn't matter. It works with what you have. Plus, if you want to edit your pics and photos, it's compatible with iPhoto® and iMovie®—even Photo Booth®.\*\*

### 8-megapixel snapshots

You can take high-resolution snapshots at up to 8 megapixels (software enhanced).

### Logitech More HD

Thanks to More HD this webcam doesn't compress video during a call, so your image stays HD-clear and your computer runs more efficiently—even if it's a little old.

PC only

### Logitech Video Effects

Your video calls get an extra dose of fun with Video Effects. It's easy to spice things up with neon splashes, fish-eye distortions—even make your own mask with mask maker.\*\*\*

### Free video-editing software

Logitech has teamed up with MAGIX to offer MAGIX™ Photo Manager 9 and MAGIX™ Video Easy with your new Logitech webcam. And they're free.\*\*\*\*
