Multi-mode Wireless Optical Combo Set

8000M

Stylish, compact, and colorful: This set is a delight to behold with its minimalist design, which – thanks to its color accents – makes for a real eye-catcher on any desktop. 8000M transmits using Rapoo's latest multi-mode wireless connection – via a reliable 2.4 GHz wireless transmission, Bluetooth 3.0 or Bluetooth 4.0 (Smart) – enabling you to connect simultaneously to multiple devices and switch (pair

automatically) among them. The spill-resistant design ensures that a little mishap with a coffee cup does not put the keyboard out of action, while the mouse's 1300 DPI HD sensor offers incredible precision. To top it off, 8000M offers a continuous use of up to 12 months (keyboard) and up to 9 months (mouse), plus a power button.

► Multi-mode wireless connection

Interference-free wireless options: The smart switch between Bluetooth 3.0, 4.0 and 2.4 GHz ensures stable wireless transmission with up to 10 meters range and 360° coverage. You can still use your keyboard regardless of USB port shortage or the loss of receiver.

► Instant switch among multiple connected devices in one click (Automatic pairing)

Connect to all your devices: 8000M automatically pairs the working device. It simultaneously connects to multiple devices, and easily switches among them in a click of a button. It simplifies activities across devices and meets multi-tasking requirements.

► Adjustable 1300 DPI HD sensor

As sensitive as you want: The mouse's optical HD sensor resolution can be toggled between 600 DPI (for maximum precision) and 1300 DPI (for maximum speed) at the press of a button.

► Spill-resistant design

Drinks allowed on your desktop: The design protects the 8000M against splash damage and is available in black or white.

Specifications

Multi-mode wireless connection:
2.4 GHz, Bluetooth 3.0, Bluetooth 4.0
79 scissor keys incl. 20 hotkeys
Spill-resistant design

Ergonomic mouse design

Adjustable 1300 DPI HD sensor
