

# Stereo Headset H110

[Overview](#) [Features](#) [Image Gallery](#) [Specifications](#) [Support](#)

**With a noise-canceling microphone and full stereo sound, this versatile headset makes it easy to start talking to friends online.**

### Noise-canceling microphone

It reduces annoying background noise and helps keep your conversations clear.

### Full stereo sound

This headset isn't all talk—stereo sound means you can use it for movies, music and games, too.

### Flexible, rotating boom

You can position the microphone where it picks up your voice best—and rotate it out of the way when you're not talking.

### Versatile design

The microphone can be worn on either your left or right side.

### Adjustable headband

The headband adjusts to give you just the right fit.

### Color-coded 3.5 mm plugs

Connecting is easy—the 3.5 mm plugs work with virtually any PC sound card.

## Logitech HD webcams.
