# The versatile, high-performance scanner with a unique space-saving design.

The imageFORMULA DR-M140's versatile performance is ideal for busy offices, departments and workgroups. The scanner's fast, high-quality scanning and range of intuitive features make it a superb productivity booster.

## Innovative, space-saving design

The imageFORMULA DR-M140 is compact with a small footprint for ultimate space savings. It is ideally suited to environments where space is often limited, like reception areas, customer service points and busy corporate departments. Measuring less than 10cm in height, the DR-M140 is even small enough to fit into a desk drawer.

## Fast and durable

The DR-M140 is highly productive, with colour scanning speeds of up to 80ipm at 300dpi and a suggested daily duty cycle of up to 6,000 scans/day. Together with a 50-sheet document feeder, the DR-M140 is ideal for environments where batch scanning with accurate OCR applications is integral to business workflows and content management systems.

## Smart paper-handling technology you can depend on

The DR-M140 is designed to help you maintain exceptional productivity. Ultrasonic double feed detection quickly identifies misfeeds, while a convenient double feed release button lets you 'ignore and continue' scanning in special cases – such as when scanning envelopes or documents with sticky-notes.

## Exceptional image processing

Thanks to its powerful image processing features, the DR-M140 delivers consistently high quality results. Features like auto-colour detection, advanced text enhancement, automatic paper size detection and deskew all ensure your documents are captured at optimum quality time after time. For added convenience, A3 documents can also be easily processed using Folio Mode. A MultiStream feature is included in the DR-M140 driver, so standard imaging applications can output dual stream images, for instance B/W for OCR processing and colour for archiving.

## Versatile media handling

The DR-M140 is designed with selectable U-Turn or straight-through paper path options. This means it can handle a wider variety of media formats, from thick and thin media to 3m long documents and embossed card.

Built with a robust paper separation mechanism, the DR-M140 reliably scans mixed document sizes and weights while delivering a consistently high performance – even under peak or intensive workloads.

An added straight-through paper path enables smooth scanning of plastic cards and thick documents.

**B&W  
SPEED**  
40ppm

**COLOUR

50 sheets

## Easy-to-use software that achieves superb results.

The DR-M140 is bundled with a range of smart, intuitive software that helps you produce highly professional scanning results time after time.

**CaptureOnTouch's** redesigned user interface makes it faster and simpler than ever to achieve premium-quality results. It incorporates a Full Auto Mode function that delivers a simplified scanning operation and includes 'one-touch' scanning operation for quick, effective execution of scanning tasks. For extra flexibility, CaptureOnTouch supports scanning to multiple file formats, including PDF, PDF-A, TIFF, JPEG, BMP and PPTX (PowerPoint). CaptureOnTouch can also send directly data management applications such as SharePoint, helping you maintain smooth and efficient workflows.

**CapturePerfect** is tailor-made for business-critical scanning and for fully exploiting the DR-M140's powerful production capabilities. It includes a great range of viewing options alongside flexible 'scanning to' options like scan to folder, email or SharePoint.

**Nuance eCopy PDF Pro Office** is a powerful, easy-to-use desktop application that creates, edits and converts PDF documents, enabling collaboration like never before.

**Kofax VRS Basic** helps to achieve excellent image quality every time. It makes scanning simpler and easier thanks to automatic image processing and document handling. Its industry-leading imaging quality improves readability and raises OCR recognition rates, so fewer re-scans are required. The result? You save money while significantly increasing productivity.

## Add a Flatbed Scanner Unit 101: for the ultimate flexibility

The Optional Flatbed Scanner Unit 101 is an ideal companion for the DR-M140. Convenient for scanning bound and fragile documents, the flatbed unit comes with features such as ambient light cancellation that allows 'open cover' scanning while a 1,200dpi sensor ensures superior image quality.

# Specifications for imageFORMULA DR-M140

Type	Desktop Type Sheet Fed Scanner	
Document Reading Sensor	CMOS CIS 1 Line Sensor	
Optical Resolution	600dpi	
Light Source	RGB LED	
Reading Side	Front / Back / Duplex	
Interface	High Speed USB 2.0	
Dimensions	Tray Closed: 313 (W) x 181 (D) x 93 (H)mm Tray Opened (feed and back): 313 (W) x 288 (D) x 93 (H)mm	
Weight	Approx. 2.6Kg	
Power Requirements	AC100 - 240V (50/60Hz)	
Power Consumption	Scanning: 25W or less, Sleep Mode: 1.9W or less, Power Turned Off: 0.5W or less	
Operating Environment	10 - 32.5°C (50 - 90.5°F), Humidity: 20 - 80% RH	
Environmental Compliance	RoHS and ENERGY STAR	
<b>READING SPEED*</b> (A4, Portrait) B&W/Greyscale Colour	<b>DR-M140</b>	
	200dpi / 300dpi	40ppm / 80ipm
	200dpi / 300dpi	40ppm / 80ipm
<b>DOCUMENT SPECIFICATIONS</b>		
Width	50.8 - 216mm	
Length	54 - 356mm	
	<b>U-Turn</b>	<b>Straight-through</b>
Thickness	0.04 - 0.15mm (27 - 128g/m <sup>2</sup> )	0.04 - 0.3mm (27 - 255g/m <sup>2</sup> )
Card Scanning	54 x 86 x 1.4mm (Embossed card scanning is supported)	
Business Card	50.8 - 91mm (Thickness 380g/m <sup>2</sup> 0.45mm or less)
