

Privacy wherever you go

3M™ Vikuiti™ Privacy Filters for Laptops, Netbooks, Mobile Phones, PDAs and Desktop Monitors

Any idea who's been looking at your screen today?

Did you know there is a 4 in 5 chance that someone, somewhere, will have been trying to snatch a glance at your laptop, phone or PC today. Thankfully, 3M has a fast, affordable solution that will help protect your data instantly, whichever electronic devices you're using. **Fit a 3M Privacy Filter, problem solved. Simple.**

How do 3M Privacy Filters work?

3M Privacy Filters block out the view from either side of your screen without blurring or distortion, enabling you to safely continue viewing confidential data and personal files in public – all everyone else will see is a black screen. Our filters range from removable protective films for mobile phones and PDAs, to a flexible, hard-wearing film that fits easily over the screens of PCs, laptops and netbooks.

Laptop filters

Left: Without Vikuiti™ Privacy Filter, on-screen data is easily visible
Right: With Vikuiti™ Privacy Filter, confidential information remains... confidential

- Unique attachment system means the filter can remain inside the laptop, even when closed
- Easily removable to allow for screen sharing when privacy not required
- LCD screen protection

Standard (4:3) format

Model Number	Fits Monitor Size*	Height (cm)	Width (cm)
PF12.1	12.1"	18.6	24.8
