(4x 120 mm LED Fans)
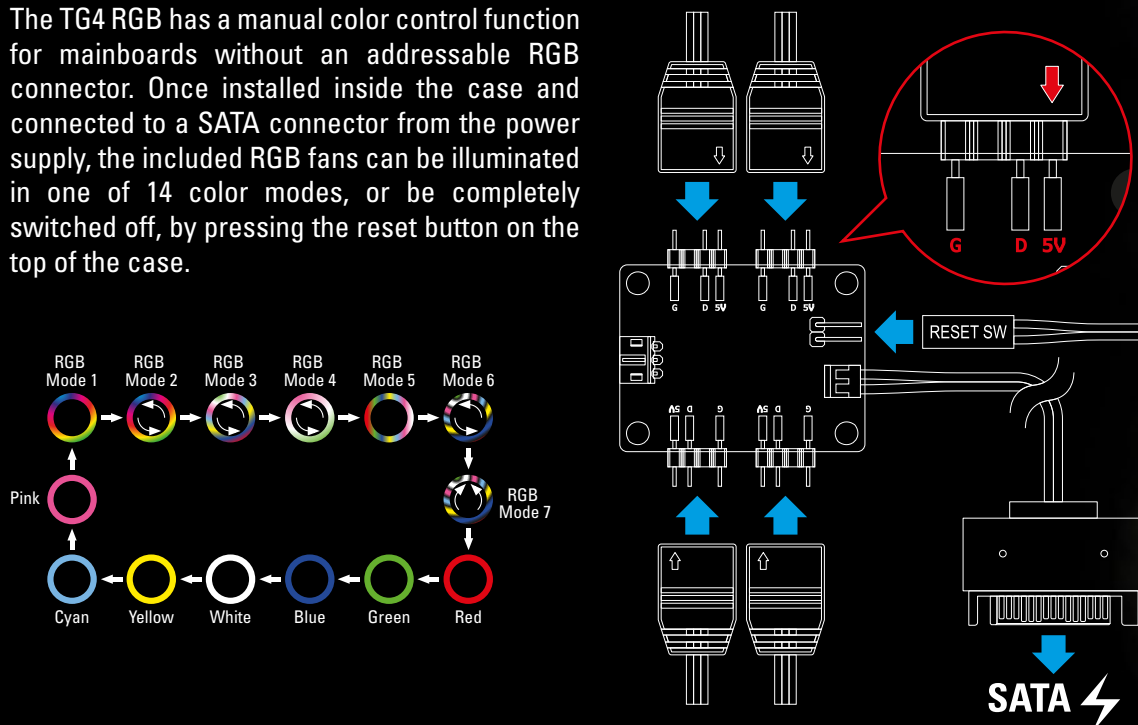

TG4 Blue
(4x 120 mm LED Fans)

4-PORT ADDRESSABLE RGB CONTROLLER

The TG4 RGB includes a 4-port addressable RGB controller with a mainboard connector. The controller allows the pre-installed addressable RGB fans to be easily controlled and synchronized via the mainboard software. RGB components can illuminate in up to 16.8 million colors with multiple color effects.

MANUAL COLOR CONTROL

The TG4 RGB has a manual color control function for mainboards without an addressable RGB connector. Once installed inside the case and connected to a SATA connector from the power supply, the included RGB fans can be illuminated in one of 14 color modes, or be completely switched off, by pressing the reset button on the top of the case.
