Product Number: 43667
Capacity: 8.5GB
Speed: 8x
Pack Style: 25 Pack Spindle
Disc Surface: Inkjet Printable-No ID
Print area: 21-118mm

Verbatim Double Layer Discs provide a massive 8.5GB (2.6 for 8cm products) storage capacity. The double layer of recording has been made possible by the creation of a new substrate layer that sits in between each recording layer, that allows the laser beam to record on both layers. Once the first layer has been recorded, the laser re-focused to record on the second layer.
As well as the latest speeds, Verbatim media is also available with a printable surface. Colours printed onto the disc surface are now as rich and deep as the original. Wide printable surfaces are also available so an image can be printed right up to the central hub of the disc surface.

How to Print a CD/DVD
